CIRCULATE

comment:

- a. Pskhachkala officer candidate school (Guvorov military school ?) is not known.
- b. In Grozny only an AF military school is known which may be the officer candidate school mentioned in the report.
- c. Guvorov military school in Dzardzhikau is not known; an infantry military school for training of infantry officers is located there according to previous information.
- d. The 8th gds Cav Div is believed to be stationed in the pyatigorsk area, according to a report of April 1946. It is considered possible that the division may have component units in Armavir.
- e. In Krasnodar only an artillery (mortar) military school has been known up to now.
- f. The Guvorov military school in Stavropolskaya was confirmed by the report up to October 1949.
- g. The 1st North-Caucasus ID or the headquarters or one of the armies in command in that area (sixtieth army?) is probably in the building referred to as "General Staff Building" in the city center of Rostov.
- h. In Rostov only a tank military school is known.

- 4 annexes: (1) Soviet troops in the North-Caucasus ID (list)
(2) Soviet Supply Installations in the North-Caucasus MP
(3) Installations in Krasnodar (sketch)
(4) Installations in Rostov (sketch)

Towns	Dates	Source Employments	Installations	Locations	Occupations	Remarks	
Makhachkala (43°00' N/ 47°30' E)	1945 to November 1948	25X1X	Military quarters (two large, three- story brick build- ings)	Southern perimeter of the town near several hundred me- ters east of the power plant	"Lenin School": Very young soldiers wear- ing black uniforms practiced riding on horseback and under- went training with artillery pieces, tanks and infantry weapons in the bar- racks yard. The school was attended by about 500 trainees, called "Lenin pupils", who were instructed by officers. It was com- manded by a general. Soviet residents said that the school train- ed future party leaders.	[redacted] worked in the officer candi- date school ("Lenin School") in October 1948. The school was attended by about 700 trainees and con- sisted of a large building with two wings, situated in a garden.	25X1X
	1946 to October 1948	25X1X	Military quarters	Southern town perimeter, sever- al hundred me- ters north of	"Lenin School" for of- ficer candidates, occu- pied by about 500 troops wearing green- bordered epaulets. After 6-month courses graduates were promoted to the rank of sublieu- tenant. Troops at close- combat practices were observed.	[redacted] doing construction work in the town area in October 1948, observed at the southern town perimeter, near the FW camp, an officer school, referred to as "Lenin School", occupied by troops wearing green caps, green epaulets with numbers and green collar patches.	25X1X

Mekhe chkala (cont'd)	1945 to June 1948	Barracks	About 2 km west of the railroad station, on a hill west of a lighthouse	Occupation not identified. Guns and rocket launchers were stored on a large nearby lot	[redacted] observed several barracks buildings near a lot where rocket launchers were parked in the northern town sector in November 1946.		25X1X
Grozny (43°17' N/ 45°40' E)	1945 to March 1948	Large brick barracks	About 1 km north of the railroad station	Occupied by an infantry unit with red epaulets. Several buildings housed officer, candidates who were observed at field training			
Dzardzhikan (formerly Ordzhonikidze) (43°30' N/ 44°40' E)	1945 to 28 April 1949	[redacted] 25X1X Barracks (several brick buildings)	Southern perimeter of the town, on the western bank of the Terek River	Officer candidate school. Infantry training and training with guns and tanks were held in the barracks area. Reports of artillery pieces and infantry weapons were repeatedly heard from the training field south of the barracks. The PWs referred to the school as "Suvorov School."	[redacted] observed several barracks buildings on the southern perimeter of the town up to late April 1949. The southern buildings were occupied by a tank unit, the two northern were unoccupied.		25X1X

Dzaudzhikau (cont'd)	1945 to 28 April 1949	25X1X	Barracks (three large, horseshoe-shaped three-story brick build- ings, with black roofs, wooden sheds)	Southern peri- meter of the town, on the western bank of the Terek River	Occupied to capacity by a tank unit with gold-braided epaulets with tank insignia. A lieutenant colonel was observed to be the ranking officer. Soviet residents said that the troops were officer candidates. Two or three generals were repeatedly ob- served in town. Tanks were stored in and be- fore the wooden sheds. Troops equipped with tanks, mortars and machine guns were re- peatedly observed to leave the barracks. Reports by artillery pieces and infantry weapons were almost daily heard from a training field SW of the barracks.	25X1X observed a tank unit quartered in a large barracks on the south- ern perimeter of the town, on the western bank of the Terek River. up to October 1948. Ten T34 tanks were parked before sheds in the barracks area. More than 50 tanks (T34 and others) were parked on a lot in the town center.

Pyatigorsk 40° 00' N/ 55° E	1946 to 28 December 1948		1. Barracks (one- story angular, 80x20- meter brick building, one two-story 40x20- meter brick building, several wooden sheds, wire fence)	On the southern perimeter of the town, about 500 meters SE of the railroad station	Tank unit of 200 to 300 troops wearing black epaulets with tank insignia. Ten to twelve T34 tanks with five bogies wheels per side, armed with guns of about 80 mm caliber, were parked in the yard	observed in the town area a barracks con- sisting of four multiple- story, white brick build- ings, occupied by a mo- torized infantry unit, estimated at about one regiment and equipped with trucks converted into personnel carriers. Soviet soldiers said that the unit was sub- ordinate to a division headquarters in the Pyatigorsk area.
			2. Barracks (one prominent large three-story brick building, several sheds, wire fence)	NE perimeter of the town, on the wes- tern slope of Mashuk Hill	Artillery or AF artill- ery unit of about 400 troops. Ten to twelve motorized 76.2-mm guns were repeatedly observed before the main build- ing. Unit was also observed leaving the barracks. Target ranges for machine guns and artillery pieces were east of the barracks.	
1946 to November 1948	25X1X		Barracks (several brick buildings)	Southern perimeter of the town	Tank unit (troops with tank insignia) of un- identified strength. Driving practices were held in the yard and the adjacent ter- rain. Tanks were be- lieved to be T34 tanks	25X1X confirmed a barracks occupied by a tank unit on the southern town perimeter up to late 1948. The unit was equipped with T34 tanks, according to fellow PWs.

Belorechenskaya (cont'd)			2. Barracks (brick buildings and corrugated sheet-metal gara- ges)	Town center	Motorized infantry unit of 1,000 to 1,500 troops. Several field officers were seen.	
Krasnodar (45°00' N/ 38°37' E)	1947 to March 1949	25X1X	1. Barracks (one six-story, about 100x25-meter brick building)	See reference No 1 on Annex 3	AT artillery unit of about one battalion with red-bordered, black epaulets with crossed- gun-barrel insignia. Some soldiers were blue- bordered red epaulets. Eleven SP guns of about 120 mm caliber, twenty 75.2 AT guns and about 25 trucks were observed in the barracks area. Subcaliber target range was about 500 meters from the barracks and south of the former Tsarist cadet school (see reference letter A on Annex 3), near the PW camp. East of the cadet school was an armory and a motor vehicle repair shop (several small buildings)	Soviet soldiers said that the former cadet school was presumed to serve as quarters for AT artillery
			2. Barracks	See reference No 2 on Annex 3	Tank unit estimated at two companies. The tanks of the unit were stored at another place.

Novorossiisk (cont'd)			a 2-meter-high brick wall)			
			2. AA gun emplacements	On the elevated area about 1 km SW of the borough of Stanichka, near a hardly ever occu- pied airfield	Emplacements for heavy AA guns and searchlights were near old concrete fortifications occupied by several hundred AAA troops. Light AA gun em- placements were in the harbor area. Searchlights were identified on the hills to the north of the bay.	
Rostov (47°12' N/ 39°35' E)	May to Sep- tember 1949	25X1X	Barracks (several brick buildings, including an officers' billets)	See reference No 1 on Annex 4	No information on occu- pation. Twenty or thirty mobile charging units were observed in the bar- racks area. Several an- tenna masts, including one about 60 meters high, were seen in the area north of the bar- racks	25X1X employed as driver in the town area, made the following observations between 1946 and August 1947: 1. Cavalry Barracks (see reference No 1 on Annex 4), consisting of brick buildings and stables, occupied by a cavalry unit of about 1,000 troops, including Cossacks. Adjacent were a small motor vehicle repair shop and radio transmitting installations.
	1948 to Sep- tember 1949	25X1X	1. Barracks (one brick building was identified) 2. Barracks (one large four-story brick building, two smaller, four- story brick buildings at a right angle to the main building)	See reference No 1 on Annex 4 See reference No 2 on Annex 4. On the street connecting Krasnoarmeyskaya Ulitsa (A) and Engelskaya Ulitsa (B)	No information on occu- pation. Soldiers were seen at drill in front of the barracks Trucks with box-like superstructures, comparab- le with signal or ambu- lance cars, were in the barracks area.	2. Infantry Barracks (see reference No 3 on Annex 4) one five-story, angular building, occupied by about 800 troops equipped with mortars, machine guns and carbines.

Rostov (cont'd)	January to September 1948	25X1X	1. Barracks (one large, four-story rectangular brick build- ing, stables, one gun storage hall)	See reference No 1 on Annex 4	Generally referred to as "Cavalry Barracks"; occupied by a unit of more than 1,000 troops. Some light guns were observed through the open door of the gun storage hall. Twelve searchlights, some mounted on trucks, stood in the rear of the barracks. Three large and three small radio masts were observed in an about 300x 400-meter area adjacent to the barracks.	
		Hauling lumber from the yard	2. Military quarters (one five-story, angular brick building, one wing 100x30 meters, the other 120x30 meters, a military prison in the yard)	Town center, on a square fringed by trees, on which a large banking house and a former MVD quarters were also located	Called "General Staff Building" among the PWs. Unusually many general and field officers fre- quented the building which was guarded only by MCCs.	
			3. Motor vehicle repair shop (200x80- meter area)	Several hundred meters south of Cavalry Barracks	About 200 damaged tanks were repeatedly observed in front of the repair shop.	
Novocherkassk (48° 25' N/ 40° 05' E)	July to September 1949	Truck driver in the town area	1. Barracks (eight to ten red, four-story brick buildings, white stables and brick wall on a 1,000x400-meter area) 2. Barracks (long, five- story brick building)	SW perimeter of the town, on the road to Rostov Town center, near a church and a bazaar	Guns of about 76.2 mm caliber, drawn by 4-horse teams, were observed in the barracks Occupied by unidentified troops

1	2	3	4	5	6	7
Kamensk (48°18' N/ 40°15' E)	1947 to June 1948	25X1X	Barracks (five three or four-story, 70x15- meter brick buildings, stables)	Southern peri- meter of the town, on the road to Shakhty (47°43' N/ 40°10' E)	Cavalry unit estimated at one regiment. Well- locking riding and draught horses were observed. Riding prac- tice was observed. Most of the officers and WO's wore broad bars of decorations	Called "Dragonski Regiment," according to the Soviet assis- tant driver.
Astrakhan (48°20' N/ 48°00' E)	1945 to May 1949	25X1X	Military quarters (former citadel, an old fortress with thick walls and two gilded towers)	City center	Tank unit and AT artillery unit. Not more than five or six tanks, two or three T 34 and smaller tanks, were observed.	
	1946 to April 1949	25X1X	1. Military quarters (former citadel) 2. Ordnance park (400x250-meter area, barbed-wire lined board fence)	City center Several hundred meters SW of the citadel	Occupied by an AT artillery unit and a horse-drawn artillery unit 10 to 12 AT guns, 10 to 12 heavy mortars, 8 to 10 122-mm guns and about 30 trucks were parked in rows. Service of the piecedrill was observed.	
Stalingrad (48°40' N/ 44°28' E)	1945 to March 1949	25X1X	Barracks (7 or 8 five-story, about 70x20-meter brick buildings)	Western perimeter of the city, north of the railroad line to Moscow	Tank and signal units. Radio cars were observed	25X1X observed a tank unit es- timated at about one regi- ment in a barracks on the perimeter of the city, west of the Red October Plant, in August 1948

25X1X

1. Military quarters
(large, four or five-
story, white brick build-
ing, one 15-meter radio
mast)

Southern city
sector, on the
Volga River, about
2 km south of the
main railroad sta-
tion

Naval school (last observation
in May 1943), occupied by 200
troops, including officers and
officer candidates (some from
12 to 15 years old), wearing
letter 'N' on their epauletts. Two
motor boats (8 to 10 meters
long and about 3 meters wide)
were seen alongside a pier.
The boats had complements of
10 to 12, were equipped with a
1.2-meter long gun of about
50 mm caliber or twin-barreled
or four-barreled machine guns
and were propelled by Diesel
engines. Landing practices
with up to 40 boats partici-
pating were observed.

2. Barracks (several
brick buildings in a
tree-covered area)

About 800 meters
west of the chemical
plant in the borough
of Begetovka

Occupied by about 300 troops.
Only submachine guns were ob-
served.
Groups of 40 to 50 men repeatedly
marched towards the barracks.

1947 to
July 1948

Work on the training
grounds

Troop training
grounds (about
8x12 km)

About 25 km SW of
Stalingrad in a
large circular val-
ley

Field exercises of infantry
and tank units equipped with
up to 100 tanks, some with
flame throwers, were ob-
served.

The tanks had supporting rol-
lers and a gun with muzzle
brake. They had a very low
silhouette.

worked
at a large new barracks
south of Stalingrad
from 1946 to October 1947

Mozdok (43°43' N/ 44°35' E)	1947 to April 1948	25X1X	Ammunition depot (800x2,000-meter area, three-fold barbed-wire fence, railroad spur, 15 to 20 70x12-meter brick buildings, three quarters, one magazine, one water tower)	About 10 km SW of Mozdok, near Lukovskaya	Some storage buildings were still under con- struction in April 1948, others were stocked up with artillery ammunition. The depot was commanded by a colonel and operated by five officers, about 200 troops and more than 300 women laborers. It was guarded by about 25 men placed on <u>watch towers</u> along the fence. Incoming rail shipments of ammu- nition were repeatedly ob- served. No outgoing ship- ments were seen.	worked in the "Artillery Depot" SW of Mozdok up to Sep- tember 1947. About 15 ammunition storage build- ings, personnel quarters and a water tower were identified. Several hundred long-barreled guns of about 120 and 150 mm caliber were parked in a fenced-in section of the depot area. The commandant was a colonel. Soldiers observed wore the number 46 on their epau- lets. The depot was subor- dinate to the Kozlov "Guards Artillery School No 102", according to Soviet soldiers.
	25X1X		Ammunition depot (ten 60x50-meter storage buildings completed, 10 others under construction three quartering buildings two magazines, one air raid shelter, one water tower, 2-meter-high barbed-wire fence)	About 10 km SW of Mozdok	Destroyed in World War II; under reconstruction in 1947. Artillery, AA artill- ery and infantry ammu- nition was stored in the buildings. Incoming ship- ments averaged one train- load per week. Administra- tion and guard personnel were estimated at two com- panies.

Astrakhan	1945 to May 1949	Work in the City area	Ammunition dump (barbed-wire fence, Soviet Army guards)	Southern perimeter of the city, about 1.5 km east of the Volga River, about 2 km S of the ci- tadel	Numerous underground ammunition shelters.	
Flolovo (49°44' N/ 43°40' E)	1947 to July 1948	25X1X []	1. Artillery park	SE perimeter of the town	At least 500 artillery pieces of various caliber, including AA guns, AT guns and mortars, were seen. Repair and mainte- nance work was done on the heavily rolled guns. Batches of 15 to 20 reconditioned guns were entrained for ship- ment. Guns, motor vehicles, infantry weapons and signal equipment etc. were detrained and moved to the artillery park or the barracks at intervals of 8 to 14 days.	
			2. Motor park	SE perimeter of the town, some hundred meters S of the artillery park	Numerous repaired and unserviceable trucks and passenger cars were ob- served. Motor vehicles were repaired in the park and the adjoining bar- racks area.	
			3. Barracks (one large and six small, two-story brick buildings, several small sheds and work- shops)	Bordering on the motor park	Unit estimated at 200 troops, mostly wearing fatigue uniforms. Caps and epaulets were soldierino- colored. Athletic activities rather than arms drill were observed. The troops were chiefly employed in the storage parks or at the railroad station.
